

Tusharkanth Karlapudi

Product Designer | tusharkanth.com | k7tushar@gmail.com | +91 9029814958

I am a designer with skills and experience as a developer, creating accessible experiences. I like to experiment with ways to improve how people interact with technology, and strive to solve complex problems in simple ways.

Experience

Pay1

UX Design Intern | Jun 2021 – Aug 2021

- Led end-to-end design of the user reward system for the distributor app, to incentivise better performance in terms of getting more retailers onboarded on the payment app.
- Iterated from product concepts to hi-fi prototypes through wireframing, prototyping and usability testing.
- Revamped the design system with the UX team, where I focused on typography, colors and components for the apps.

Morphic

Contractor | May 2021 – Aug 2021

- User testing for Morpic tool, a tool for making computers more accessible.
- Worked on the internationalization of Morpic tool.
- Created the user flow and interface for Easy Gmail.

Arzooo

Front-End Developer II | Oct 2020 – June 2021

- Created the user flow, UI and also developed Arzooo's B2C platform, GoStor.com.
- Developed UI for internal dashboards

Deloitte US

Business Technology Analyst | Jun 2019 – Sep 2020

- Created UX for internal audit tool for client assessment.
- Gained experience in understanding client needs, conducting user research and accordingly design the system
- Used Material Design and Figma

Department of Technical Arts

Designer | May 2015 – May 2018

- Designed end-to-end UI for website and app for Pearl, our cultural fest.
- Created branding, posters, banners, merchandise, magazines and illustrations for various events conducted at our college.
